EXPERIENCE

Nordic Apps - *Partner & Lead Developer*

March 2017 - March 2024

- Coordinating remotely with domestic and international designers, developers, and agencies to create custom Shopify themes and apps for regular Shopify and Shopify Plus clients
- Released 4 public apps on the app store. 3 self-owned and 1 for a client

Freelance - *Shopify Developer*

January 2015 - February 2017

- Working directly with clients to provide site updates and small app projects
- Released a public app on the app store and built up a user base of approximately 500 users

SEAKR Engineering Inc, Centennial, CO - *Radiation Effects Engineer*

June 2011 - June 2014

- Coordination of device test requirements and parameters. Execution of testing. Statistical analysis of results to provide estimated failure rates on orbit
- Built internal software and hardware tools for automating data collection and analysis, improving data collection accuracy and drastically reducing man hours needed for both collection and analysis

EDUCATION

Montana State University, Bozeman, MT - *Masters of Science in Electrical Engineering*

August 2005 - June 2011
